COMPUGEN
Innovate. Inspire. Impact.

Multifactor Authentication
Secure Digital Assets Against Unauthorized Access

Multifactor Authentication (MFA) is a crucial security measure that adds an extra layer of protection to traditional username and password-based authentication.

At Compugen Systems Inc., we help our clients strengthen their security postures, safeguard sensitive data, and comply with privacy regulations to protect their reputations and maintain the trust of customers, clients, and partners.

MFA can block
99.9%
of account compromise attacks.

INNOVATE + INSPIRE WITHOUT COMPROMISING SECURITY

MFA can be instrumental in securing your organization's assets from bad actors trying to exploit your endpoint or network vulnerabilities.

DISCOVERY + ASSESSMENT

Conduct a discovery workshop to learn about your specific environment and requirements.

Identify high-risk scenarios and configure Microsoft Azure AD MFA with conditional access.

ADOPTION + ALIGNMENT

Configure MFA for up to 10 Microsoft or supported third-party Azure AD- integrated applications.

Pilot MFA with a small group of users.

Roll out MFA to up to 100 users in the production environment.

IMPLEMENTATION + SUPPORT

Support change management for MFA enablement and adoption.

Prepare and present as- built documentation for knowledge transfer.

Provide support for user MFA registration and sign-in for two weeks post-implementation.

We Dream Big With You

We embody a growth mindset that bridges security expertise with passion and ingenuity to drive unprecedented growth for our clients.

---

1 Prevent threat actors from exploiting endpoint or network vulnerabilities.

2 Enhance security posture in the age of remote and hybrid work.

3 Establish trust and protect your infrastructure from the most common identity attacks.

4 Lower the cost and effort required to meet your security requirements.

5 Comply with privacy regulations, e.g., HIPAA, CCPA, PCI DSS, and GDPR.

6 Avoid data breaches and the resulting fines and penalties.

Your Experience ArchiTECH

Organizations trust Compugen Systems' skilled and experienced security experts to recommend, design, implement, and operate solutions that improve their security posture. With offices throughout North America, we help organizations make meaningful progress and realize new possibilities.
Go ahead, dream big — *we've got your back.*
