

Virtual Desktop Infrastructure-as-a-Service

Improve Security, Enhance Mobility, and Increase Scalability

A virtual desktop infrastructure (VDI) solution hosts desktop environments on a central server, allowing users to access corporate resources and applications from any device with an internet connection.

Compugen Systems Inc. offers VDI as a subscription-based service, enabling organizations to maximize the benefits of VDI without the complexity of deploying and managing on-premises infrastructure.

VDI adoption is growing, with the market projected to reach

\$57.8 billion by 2030,

driven by remote work, data security, and cost efficiency.

INSPIRE INNOVATION WITH A MODERN USER EXPERIENCE

We start every project by understanding your business objectives and aligning our strategy with your vision. Then, we follow industry best practices to ensure seamless implementation.

DISCOVERY

Conduct a discovery workshop to learn about your environment and requirements.

Evaluate application compatibility, classify user profiles, and determine workloads.

DESIGN

Design your VDlaaS architecture based on network, storage, and security requirements.

Define user policies, implement profile management, and perform application virtualization.

IMPLEMENT

Pilot and test the solution and conduct performance benchmarking.

Support rollout and user migration to maximize adoption.

We Dream Big With You

We embody a growth mindset that bridges foundational skills with passion and ingenuity to drive unprecedented growth for our clients.

1

Facilitate remote work with secure access to corporate resources.

2

Scale up or down based on seasonal spikes and evolving business needs.

3

Ease the IT workload and ensure the high availability of critical applications.

4

Streamline operations to reduce IT management costs.

5

Turn CapEx into OpEx to improve financial health.

6

Build business resiliency with superior disaster recovery capabilities.

7

Support global team collaboration while ensuring security, privacy, and compliance.

Your Experience ArchiTECH

Compugen Systems architects tailored IT solutions to lay the foundation for business breakthroughs. With offices throughout North America, we help organizations make meaningful progress and realize new possibilities.

Go ahead, dream big — we've got your back.
